SKILLS

JavaScript / ES6
HTML
CSS / SCSS
React
Redux
Enzyme / Jest
D3 / Leaflet
Node
Express
SQL / NoSQL

Git
Sketch

OBJECTIVE

Front end engineer knowledgeable in full-stack web development with a background in design. Adept in group work and conflict resolution. Actively looking to apply my skills towards helping people through building intuitive and delightful user experiences.

EDUCATION

B.A., Cognitive Science • University of California, Berkeley • May 2017

Northwestern Coding Bootcamp • Northwestern University • Sep - Dec 2017

PROFESSIONAL EXPERIENCE

Web Developer (Contract) • Public Health Institute (Oakland, CA) • Dec 2018 - Present

- Developing informational static site using React (Next.js) frontend and headless WordPress CMS

Frontend Engineer Intern • Peloton Technology (Mountain View, CA) • Jun 2018 - Oct 2018

- Developed several client-facing UI features for production and developer tools actively used by Peloton engineers using React, Redux, CSS-in-JS, Node.js, D3 and Leaflet.
- Integrated Enzyme and Jest unit testing for reliability.
- Optimized overall reusability and performance of Peloton's React component library.

Teaching Assistant • Northwestern Coding Bootcamp (Chicago, IL) • Jan 2018 - Apr 2018

- Assisted in teaching full-stack web development to class of 25 students (HTML, CSS, JS, React, jQuery, Node, Express, MySQL, MongoDB, Firebase).
- Worked with students both individually and in groups to develop and troubleshoot full-stack projects.

TECHNICAL PROJECTS

Front End Developer • Chews • 2017

- On a small team, designed and developed application front-end using Invision, React.js, ES6, and styled-components.
- App for connecting culinarily inclined travelers and locals

OTHER EXPERIENCE

Consent Workshop Facilitator (2017) , Social Coordinator (2015 - 2016) • Berkeley Student Cooperative

Eagle Scout • Boy Scouts of America • Apr 27 2011
